2016 INTERCULTURAL AND INCLUSIVE EDUCATION CURRICULUM DESIGN COMPETITION

This competition is intended for students in teacher education programs in Quebec universities. It invites teacher candidates to create learning and evaluation situations or innovative curriculum projects on themes related to ethnocultural, religious and linguistic diversity for their future students.

OBJECTIVES OF THE COMPETITION

This competition aims to support the development of intercultural and inclusive competence in future teachers. Known as the “13th” competence at UQAM, it involves *two key goals*:

1. *Adopt equity practices that take into consideration the ethnocultural, religious, linguistic and migratory experiences of learners, particularly those of minority groups.*
2. *Prepare all learners to live together harmoniously in a pluralistic society and develop a more just and equitable world.*
